EXPERIENCE

Frontend Developer Intern → Associate Frontend Developer

Artem HealthTech

📅 Jan '25 – Apr '26

- Developed and maintained production-ready HMIS modules used across multiple hospitals using Angular 17, PrimeNG.
- Built secure OTP-based login and change-password authentication workflows, improving user account security and authentication reliability.
- Optimized API calls in modules, reducing redundant API requests from 4–8 calls to a single optimized request, improving application performance by approximately 70
- Implemented RxJS best practices to prevent memory leaks and improve subscription management stability.
- Refactored and minimized unnecessary code across multiple modules, improving code maintainability, readability, and overall frontend performance.
- Contributed to multilingual healthcare portal development with i18n localization support for Hindi and Marathi.
- Implemented IndexedDB integration for optimized offline/local data handling in healthcare modules.

MERN Stack Developer Intern

Silver Touch Technologies

📅 May '24 - July '24

- Developed a responsive website using HTML, CSS, JavaScript, jQuery, and Bootstrap, enhancing user experience and accessibility.
- Implemented RESTful APIs using Node.js and Express, reducing server response time by 35%.
- Managed databases using MongoDB, including schema design, data modeling, and efficient query handling, improving data retrieval speed by 40% .
- Conducted thorough testing of API endpoints using tools like Postman, achieving a 98% bug-free rate .

PROJECTS

HireTech | MEAN Stack Job Portal

📅 May '26 - Present

- Designed and optimized database schemas for users, job postings, and applications.
- JWT-based authentication and role-based authorization for recruiters and job seekers.
- Developed responsive frontend components and integrated REST APIs for seamless user interaction.
- Worked on scalable backend architecture and secure authentication workflows.

EDUCATION

B.Tech Information and Communication Technology

Pandit Deendayal Energy University

📅 May 2025

CGPA : 8.64

SKILLS

Languages

- JavaScript, TypeScript, SQL

Frontend Technologies

- Angular, RxJS, Angular Material, PrimeNG, PrimeFlex, Bootstrap, Tailwind CSS, HTML5, SCSS, CSS3

Backend and Database

- Node.js, Express.js, MongoDB, Mongoose, MySQL

Tools and Platforms

- Git, GitHub, VS Code, Postman

Concepts

- REST APIs, JWT Authentication, OTP Authentication, State Management, API Optimization, Responsive Design, Agile Methodology, Lazy Loading, RxJS Operators, IndexedDB

ADDITIONAL HIGHLIGHTS

- Strong experience in enterprise healthcare application development.
- Hands-on experience with Angular performance optimization and scalable frontend architecture.
- Familiar with Agile development workflows, Jira task management, and collaborative development practices.
- Passionate about frontend engineering, UI optimization, and production-grade application development.
